

BONACINA '86 SRL

## STAMP SYSTEM DIGISTAMP SC 2000 USB

Bonacina '86 srl is exclusive distributor in Italy for stamp system DIGISTAMP SC 2000 USB. Whether you're a stamp manufacturer, copy shop, express service or stationery supplier, we have a machine that will really make an impression. The Brother DIGISTAMP SC 2000 USB creates pre-inked stamps speedily in 3 minutes, making it the most margin-friendly machine on the market. What's more, the Brother DIGISTAMP SC2000 USB is small enough to be portable while only taking up the minimum of floor space in your shop or office premises. The DIGISTAMP SC2000 USB enables you to produce virtually any kind of stamp your customers could possibly want. You can turn signatures, text, photos or logos into pre-inked Digistamps. They come in 11 different sizes and are available in black, blue, red and green ink colours. You can take advantage of 150 different pre-formatted designs – with each design capable of making 50,000 impressions. Basically, almost anything you can create on a computer, Brother can help you put on a stamp. Just imagine the wide range of clients who will find Digistamps useful – business, shops, schools, libraries, hospitals, as well as personal applications. No wonder the DIGISTAMP SC2000 USB will make a great impression on your profits.
