

LUXORO SRL

WHAT FOIL CAN DO.....

With this slogan luxoro is going to draw all the visitors towards it's booth. Luxoro, best partner and distributor of kurz, german company manufacturer for cold and hot stamping foil : Group that, with the all the factories and sales agencies spread all over the world is the market leader in this field.

Kurz foils received great success all over the world. Foil is the standard in the hot stamping technology . Our work is based on different areas: graphic, cosmetic, coding, ttf, brand protection commercial security, high security, leather and artificial leather, plastic pvc profile, frames and automobile, with a great range of innovative and competitive proposals and solutions .

We would also like to draw your attention to the holographic effects produced from kurz: personal holograms and standard designs that realise at the same time a double function: to draw The attention of the consumer giving the product a good image and to protect the trade mark from possible counterfeit of the same.

In the graphic field we are among the best luxor®, alufin®, colorit® e light line designs® are foils which will make your products still more attractive by also offering quality suitable for high speed working, with the possibility of full depth of relief and impression suitable for fine and solid areas.

Give the possibility to luxoro to show you the more recent and innovative developments !

We will introduce, already shown at drupa 2008, where they received a lot of interest among our clients , foil suitable for hot and cold application and subsequently overprintable with inks and uv drying lacquers .

we are not satisfied with only being a partner of kurz, but in our range of products we also distribute the equipment for the cold stamping foil produced by hinderer + muehlich: counter dies , embossing dies cylinder engraving, and all that it is able to serve and to effect hot stamping using the best products and modern technologies, placing the client side by side in all the phases of the process of pressing , to embellish and to dignify the hot stamping .
